

UK Defence & Security Exports

Cyber Trade Mission to Singapore

Singapore International Cyber Week, 14 – 17 Oct 2024

UK Defence and Security Exports (UKDSE), in association with the British High Commission in Singapore invites you to join a trade mission to introduce you to Singapore's cyber ecosystem and identify potential commercial opportunities.

Cyber security remains UK's strongest security export and in 2022, it recorded around £6.2 billion worth of export value ([UKDSE, 2022](#)). Singapore's strategic location as financial and tech hub in Asia Pacific provides more opportunities for UK cyber companies as Singapore listed as UK top 10 security export destinations.

However, Singapore's strategic location also makes it vulnerable to cyber-attacks which target key sectors such as financial institutions and other critical infrastructures. To address to this challenge, UKDSE and the British High Commission in Singapore will be organising a cyber trade mission to enable UK cyber companies engage with the local cyber ecosystem and meet with potential partners, distributors and clients.

The mission is organised to coincide with Singapore International Cyber Week and [GovWare](#) Exhibition. In 2023, GovWare had over 12,000 attendees from 65 countries. You will have the opportunity to connect with cyber security stakeholders around the region and present your innovation solutions.

Registration

Expression of Interest will be open from **Fri, 5th Jul 2024 to Fri, 2nd Aug 2024**. Please submit your application through this [link](#).
