# Industry as Support Partner

## **Context**

# TEAM DEFENCE INFORMATION WWw.teamdefence.info

#### Industry as Support Partner

## **Strategic Outcomes**

Industry as Support Partner

#### **SO #1**

A capable and resilient defence support enterprise

#### SO #3

Effective delivery of defence support, integrated across the military - industrial complex

## Some key questions to address for Strategic Outcomes #1, #3

Industry as Support Partnei

- 1) How do we most expeditiously deliver the emerging policy ambition for a persistent, sustainable, global forward presence that is both effective and efficient?
- 2) What could we do more of by way of Partnership with Industry in maintaining a capable and resilient Support Enterprise?
- 3) How do we need to change the way we work together to ensure our relationships underpin through life availability and productivity? How do the emerging imperatives for Sustainable Support change this calculus?
- 4) How should we improve diversity in the Support chain, including by removing perceived and actual barriers to entry?

### **Summary**

- We welcome the vision and proposed strategic outcomes
- Many moving parts: the potential is great the challenge is complex
- Let industry work with you; it can only be delivered together
- Let's collaborate to accelerate
