

UK Defence & Security Exports

Cyber Trade Mission to Singapore

Singapore International Cyber Week, 16 – 19 Oct 2023

The Defence and Security Exports (DSE), in association with the British High Commission in Singapore invites you to join a trade mission to introduce you to Singapore's cyber ecosystem and identify potential business opportunities.

As one of the financial and tech hub in Asia Pacific, Singapore has built a strong cyber ecosystem to protect its economy and infrastructure against cyber threats. Phishing and ransomware attacks continue to rise and prompt the Cyber Security Agency (CSA) to establish Counter-Ransomware Task Force.

In response to the evolution of more sophisticated cyber-attacks, CSA and local system integrators are always on the look-out to identify innovative cyber security solutions to address these issues. DSE and the British High Commission in Singapore will be organising a trade delegation mission to enable UK cyber companies engage with the local cyber ecosystem and meet with potential buyers, distributors and end-customer.

The mission is organised to coincide with Singapore International Cyber Week and [GovWare](#) Exhibition. In 2022, GovWare had over 10,000 attendees from 65 countries. You will have the opportunity to connect with cyber security stakeholders around the region and present your innovation solutions.

Registration

Deadline for your Expression of Interest no later than **Thursday, 31st August 2023**. [Please apply here](#).
