Consultant	Independent	Managing consultant	Real Wireless Ltd		
JSA Plam	ISS	Head of Profession: Sensors and Comms	Roke Manor Research		

The Public Sector Spectrum Release Programme (PSSRP) has enabled the release of spectrum to increase efficiency of use and enhance the economic contribution of spectrum to the UK. PSSRP goals can be achieved by both change of use of spectrum, which has mostly been the case up to now, and the use of spectrum sharing to expand spectrum supply.

This event will explore a possible method for how public sector and in particular Defence spectrum could be accessed by users on a shared basis and the mechanisms required to enable this.

- Tony Lavender, **UK SPF** and **Plum Consulting**
- James Youngs and Keith Tench, **Ministry of Defence**
- William Webb, **Webb Search**
