

Marketing opportunities calendar 2026

We are looking forward to receiving your contributions to our campaign weeks, blogs, and events this year. Please refer to our [contributor guidelines](#) and [sponsorship opportunities](#) for further information.

Please note the below opportunities will be updated as more information becomes available.

If you have any questions, please contact sean.moore@techuk.org or margherita.certo@techuk.org

September

[Policing Problem Book Day](#) – 9 September

As part of our ongoing engagement with National Police Chiefs Council (NPCC) and the Office for the Police Chief Scientific Advisor (OPCSA), techUK is delighted to announce that on Wednesday 9 September, we will be running our Policing Problem Book Focus Day. This is your opportunity to respond directly to one of the 13 problem statements set out in the [Policing Problem Book](#), and showcase how your organisation's technology, expertise, or innovation can help solve the challenges facing policing today.

We are inviting members to submit thought-leadership pieces that speak to one or more of the [problem statements](#) so that these can be shared with NPCC and OPCSAs ahead of this year's NPCC Innovation and Digital Summit 2026. From improving the capture and analysis of digital evidence, to building a digitally empowered and data-literate workforce, the Problem Book sets out where policing needs industry's help most. This is your chance to answer that call.

Local Public Services Innovation week - 14-18 September

This week, we are looking to engage with our members and councils in our network to showcase the collaboration happening between public and private sector. Please contact Georgina (Georgina.Maratheftis@techUK.org) if you wish to contribute.

[Mobilise Conference](#) – 30 September

Mobile is our yearly conference dedicated to transport technology. The theme this year is "Strategy to Delivery" and the event will tackle the defining question facing UK transport: how do we turn ambitious government strategies and consultations across a wide range of transport modes and technologies into real-world action?

Expect senior speakers, candid debate and genuine insight into the opportunities and obstacles ahead, alongside the networking that makes Mobilise one of the most valuable dates in the transport technology calendar.

October

[Cyber Security Dinner](#) – 6 October 2026

We are delighted to see the return of the Cyber Security Dinner in Central London. The event brings together senior stakeholders from across government and industry for an informal

discussion on some of the key issues facing the sector. The dinner provides members with a fantastic opportunity to celebrate new innovations and connect with like-minded individuals.

The event provides a significant platform for businesses in the sector to gain visibility and engage with stakeholders, including representatives from the NCSC, DSIT and DBT. Attendees will also have the opportunity to network with members of the techUK Cyber Security Programme as well as wider stakeholders across the UK cyber security sector.

Cyber Innovation Den – 6 October 2026

techUK's Cyber Innovation Den is back for its eight year! This flagship event brings together the UK's cyber security community for an afternoon of valuable insights from expert speakers, all while celebrating the brightest innovations in the sector.

Cyber Landscape day – 7 October

On this day we will be looking to educate our audience on supply chain security. If you are working in this area and would like to contribute, please contact Olivia, olivia.staples@techuk.org

Health and Care Summit – 8 October 2026

Our Health and Care Summit brings together techUK members and stakeholders from across the digital health and care sector and provides a forum for industry leaders to discuss key issues. The event will delve into the critical issues facing the health and care sector and highlight the transformative potential of technology-based solutions. The Summit offers a day of engaging and varied sessions, including: keynote speeches from senior leaders at the Department of Health and Social Care and NICE, fireside chats with senior Devolved stakeholders and panels on topics including AI, the 10 Year Health Plan, life sciences, scaling in the UK and FemTech, opportunities for networking with other techUK members as well as public sector stakeholders.

Digital ID day – 15 October

More information will be shared soon. Please contact Elis (elis.thomas@techuk.org) to share your early interest.

AI week – 19-23 October

The AI Campaign Week is designed to show techUK's ongoing work on AI and to bring the tech community together to share ideas, highlight trends, and discuss opportunities and challenges. It builds on our previous AI initiatives over the years and aims to raise awareness, support collaboration, and help businesses and policymakers understand how AI can be used responsibly and effectively. Please contact Usman (usman.ikhlaq@techuk.org) to express your interest.

Tech and Net Zero Conference – 21 October 2026

A new year means another Tech and Net Zero Conference hosted by techUK. In 2026, we'll be building on the momentum and insights from previous years to tackle the ever-evolving challenges of climate change and the role of technology to deliver solutions at scale.

This year's conference comes at a pivotal moment. With 2030 targets fast approaching and the global net zero transition accelerating, the technology sector's role has never been more critical. From the data centres powering our digital lives to the recycling of millions of

devices to the AI systems optimising our energy grids, tech is both part of the challenge and central to the solution.

Digital transformation in the Public Sector week –26-30 November

On this day we will be looking to showcase how our members and stakeholders are helping transform public services. If you wish to share your story, please contact Ellie (Ellie.Huckle@techUK.org).

November

Tech and Innovation Summit – 3 November

techUK's fourth annual Tech and Innovation Summit brings together the innovators, investors, policymakers, and researchers shaping what comes next, exploring how the UK's regions, research institutions, and companies of all sizes can work together to turn scientific excellence into scaled, sovereign, commercially successful capability.

Across a day of discussion, showcasing, and celebration, the Summit will explore the full innovation pipeline, from the fundamental research that underpins discovery, through the funding, commercialisation, regulation and scaleup support that carry ideas to market, to the convergence of emerging technologies now moving from lab to real-world deployment. Delegates will hear from those defining the UK's position in low earth orbit compute, robotics, semiconductors, and more; debate where the UK should concentrate its efforts and where it must let go; and celebrate the innovators already operating at the cutting edge.

Cloud week – 9-13 November

More information will be shared soon, please contact Chris to flag any early interest in contributing (chris.hazell@techuk.org).

London Health and Social Care Industry Dinner - 11 November 2026

Our Health and Social Care Industry Dinners provide a forum for industry to come together to have an informal dialogue around the realities of digital transformation and technology in health and social care. The evening will include informal networking opportunities with representatives from across the industry and keynote speeches from senior figures in the healthcare sector.

The event provides a significant platform for businesses in the sector to gain visibility, reach key industry stakeholders and is an excellent opportunity to network with members of techUK Health and Social Care Programme (all dedicated in driving innovation in the industry through the smart use of new intelligent technology).

Future of Compute – 16-21 November

Throughout this week, we will be looking at exploring how the UK can lead on the development and deployment of Frontier Compute technologies and champion what our members are doing in this space. To express early interest, please contact Ella (ella.shuter@techuk.org).

Defence Winter Dinner – 19 November 2026

Our next Defence Winter Dinner will take place on Thursday 19 November 2026. More information will be shared soon.

Digital Ethics Summit 2026 – 2 December 2026

Join us as we celebrate the ten-year anniversary of our Digital Ethics Summit. This year, the Summit will explore whether we have the right institutions, bodies, governance structures we need to address where we are today and apply foresight into what may lie ahead. We will explore whether the digital ethics principles and frameworks being put into action are delivering the outcomes they were designed to achieve and what more may still be needed? It will discuss whether we have the appropriate human capacity, the organisational and political will, and the shared purpose to make ethics in action work on the ground at scale and if not, what more do we need to prove that an ethics-driven approach to responsible AI governance and deployment at work.

While the Summit reckons with the present, the horizon also demands attention. Ethical questions raised by AI do not exist in isolation. The emergence and convergence of technologies such as agentic AI, robotics, quantum computing, immersive and spatial technologies are bringing their own set of challenges. This is a frontier that the digital ethics community must map now, before deployment outpaces reflection. In its tenth year, the Summit will look ahead in the future and consider the work that must now also be done.
