

UK SPF Cluster 3: Spectrum Sharing Workshop, session 3 of 3

29 September 2021

- Please turn your camera off and stay on mute unless you are presenting
- This session is under Chatham House rule
- Slides will be uploaded as PDF's

14:00-16:00

DCMS has asked Cluster 3 to review spectrum sharing in the UK, the extent to which current shared spectrum access is creating the right conditions for new players to provide innovative services (including 5G), and what future needs for sharing might be including DSA.

W1) The first of in this series took place on Friday 18 June 2021 and looked at 5G services / use cases and their spectrum requirements.

W2) On 26 August we looked at options for shared spectrum supply, potential barriers to sharing and measures implemented by Ofcom to enable sharing.

W3) Today we will focus on the future including the requirement for DSA

Agenda

- Introductions: Tony Lavender **Plum Consulting (Chair)** and DCMS
- Where next for sharing: William Webb, **Webb Search**
- DSA functional specification: Simon Saunders, **King's College London**
- GSA sharing presentation: Reza Karimi, **GSA**
- Open discussion: All
- Summing up and next steps: Tony Lavender, **Plum Consulting (Chair)**
