

Workshop 3 of 3:

6G: Software Defined Radio and RF Sampling

Technology Drivers for Spectrum Sharing & Redeployment & Efficiencies

16 September 2021

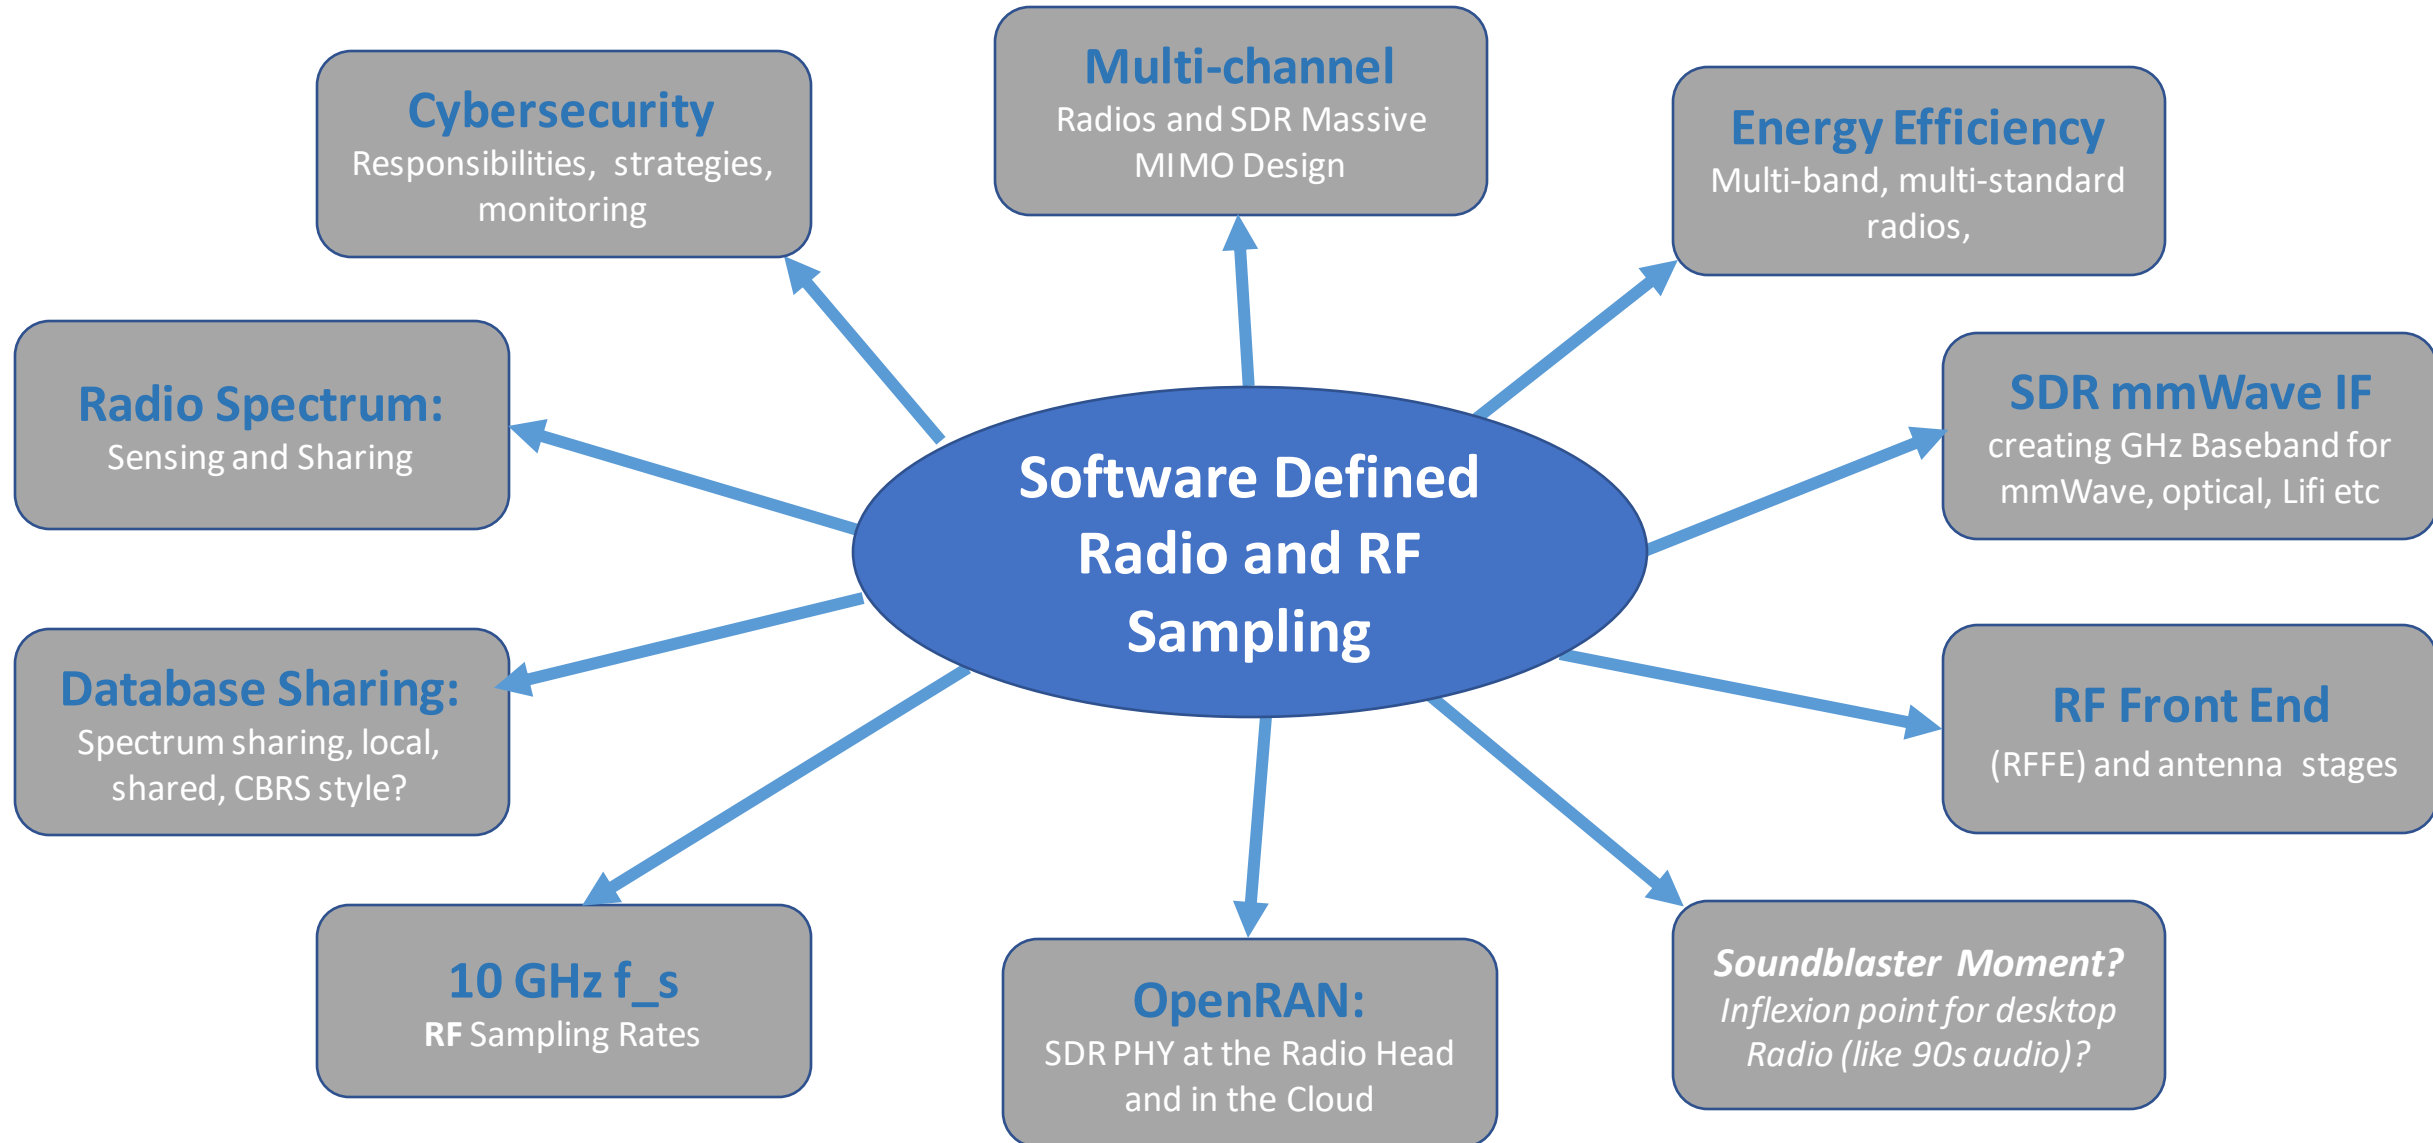

(Live at!) Technology and Innovation Centre (TIC), Glasgow, G1 1RD (and on-line...)

Workshop 3 of 3: University of Strathclyde, 16 Sept 2021

- As with both preceding workshops this event features UK University/Academic R&D relevant to the next generation - 6G - spectrum access.
- *We hope* the event will be *blended*, both live (join us!) and on-line.
- If you have not yet engaged with the workshops and would like contribute, you can contact Strathclyde Chair: Bob Stewart, r.stewart@strath.ac.uk or TechUK Organiser: Jo O'Riordan jo.oriordan@techuk.org
- The final programme will be released end of July 2021.

SDR and RF Sampling as the enabling Theme ...

... If you can come to Glasgow on Sept 16th a walking tour on offer of what's left of the first 'Cellular Network' from 1891 ...

**Glasgow: the first
'cellular network'**

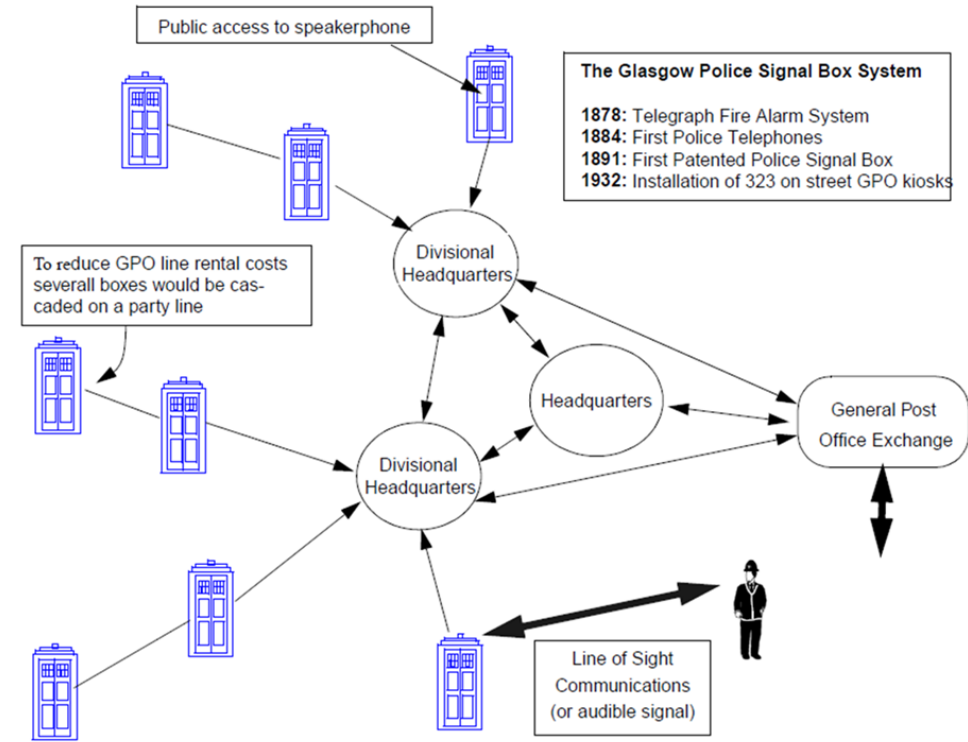

1891: The world's first public emergency access phone network, patented in Glasgow

1891

Glasgow: Public Access Network

Before Zoom: A 1931 Hands-Free Speaker-phone in Glasgow

1931

... how can you resist this offer...!
